## Fishpics® Marine Life Illustrations

“because people care about what they see”

Desde 2003 que a Fishpics® tem vindo a desenvolver técnicas de design que visam melhorar e aumentar a eficácia da comunicação visual da vida marinha, usando a grande diversidade de trabalhos desenvolvidos em conjunto com o IMAR-DOP da Universidade dos Açores.

As ilustrações resultantes pretendem capturar a beleza natural e comportamental de espécies marinhas vivas e saudáveis. Elas tencionam incrementar a comunicação visual, a compreensão e a valorização do ambiente marinho.

As pessoas interessam-se pelo que vêem e a elevada qualidade destas ilustrações coloridas estimulam e promovem o interesse público pela marinha vida dos Açores.

The resulting illustrations strive to capture the natural beauty and posture of live, healthy marine life species and are dedicated to a better visual communication, understanding and appreciation of the marine environment.
